

# NUMBERING AND PERFORATING GRAPHIC WHIZARD 6000

**GRAPHIC WHIZARD  
6000**

*Graphic Whizard numbering and perforating machines all feature the unique adjustable depth perf-score system. Sets can be part-perforated in one pass (ie 3 out of 4 sheets perforated), bottom fast sheet left unperforated.*

**FINISH MASTER 100**  
Available as perforator - scorer  
without numbering

# NUMBERING AND PERFORATING GRAPHIC WHIZARD 6000

G-Whiz numberers perforate and score before the sheet is numbered, sheets are held in position by three sets of gripper wheels whilst being perforated or scored. Other manufacturers

perforate and score on a single set of exit wheels after being numbered, with the resulting run-off in their perforation accuracy.
